

Sudoku

All Sudokus are completely random generated, unique and solvable by logic only (with the exception of level "evil").

A collection of numbers 0-9 in various sizes and orientations, some with small squares, on a black background. The numbers are scattered across the frame, with some appearing in large, bold fonts and others in smaller, more delicate fonts. Some numbers are accompanied by small white squares, possibly indicating specific points of interest or data points. The overall composition is abstract and artistic, with a focus on the visual representation of the digits themselves.
